2. Reasons for the differences

The differences between the non-consolidated financial results for the fiscal year ended March 31, 2025 and the actual results for the previous fiscal year (April 1, 2024, to March 31, 2025) are as above; net sales decreased due to decrease in the sales of POS systems for the domestic markets and the transfer of the inkjet head business though the sales of multifunction peripherals (MFPs) slightly increased due to the impact of foreign exchange rates ,etc.

Operating profit increased due to the significant improvement in profit and loss of MFPs.

Ordinary profit decreased due to decrease in dividend income.

Net income increased due to the recording of settlement income and gain on sale of businesses despite the provision of allowance for doubtful accounts.
